

## Environmental Learning Cards

The Environmental Learning Cards have been designed in the same format as the Outdoor Learning Cards, to give staff and young people an introduction to **Discovering, Exploring, Sharing and Sustaining** the natural environment.

The Cards offer a range of activities that are of great value in themselves, but also provide the opportunity to support and add value to on-going programmes of learning.

**The card pack is £45**

**& 1 Days Training £80**

### Use the FCC Centre for Delivery

Not all schools have the facilities - but once you have completed the OEAP courses we welcome you to use the fantastic facilities we have to offer.

With a nominal charge to take care of resources and facilities you can use the centre equipment and grounds to deliver your outdoor learning.

Teachers and leaders have access to our orienteering courses, climbing tower, ponds, fields and team building equipment and represents a very cost effective way of delivering your outcomes.

## Post Course Support

After your course you may feel you need a bit more help. We have a range of short sessions that can be delivered at the centre or in your setting.

**Camp fires for engagement**  
**Outdoor cooking**  
**Navigation / GPS / Geocaching**  
**Team Building for SEN**  
**Boulder/Traverse Games**  
**Tool / Knife use**  
(Allow 2.5hrs)

We have a large store of Trangia stoves, tents and equipment to assist your group with journeys, cook outs and overnight camps.

We can give you advice on installing and maintaining a low level traversing wall on your premises or offer you the opportunity to use ours so you can deliver a bouldering session at FCC.

We have set up many schools with orienteering courses. Producing the the maps and delivering the training to run them successfully.

# 01299 403292

**At the Frank Chapman Centre we firmly believe that outdoor learning and adventure isn't the preserve of outdoor education instructors working in centres, but excellent outdoor learning starts with passionate teachers, youth workers and group leaders in their settings – school grounds, playing fields and youth clubs.**

# Outdoor Learning Cards

The National Outdoor Education Advisory Panel (OEAP) has developed a series of cards to assist delivery and covering the basics.

We offer a one-day practical course on using the pack that provides teachers, and staff working with young people the resources and skills needed to deliver high quality and exciting outdoor learning activities in and around the school or youth club grounds. The activities are relevant at all key stages and age groups and across curriculum subjects.

The Outdoor Learning Cards activities contribute directly to a wide range of educational and development aims for young people and cover four elements of Outdoor Learning that can be delivered on a school or youth club site and surrounding environment:

**Orienteering**

**Team Building and Problem Solving**

**Bouldering and Traverse walls**

**Journeying and Campcraft**

The card pack is £80 & 1 Days training is £80

This course can also be split into 4 twilight sessions
